

WELLNESS EXTRACT

CELL DTOX

Mega Antioxidant Cleanser

Say Good-bye to Toxins and Hello to Wellness with Cell Dtox!

Cleanse your body and uplift your soul with Wellness Extract Cell Dtox drops. Enriched with humic and fulvic acids in the activated zeolite liquid drops, Cell Dtox optimizes the natural detoxification process with its advanced TRS Detoxification System. It is a powerful mineral supplement that replenishes the electrolytes in our bodies and recharges them by accelerating bioactive waste removal. Humic Acid stimulates the immune system, and Fulvic acid enhances resistance against toxins. A combination of the two increases mineral absorption in your body. This unique blend is safe and contains the optimal levels of trace minerals that protect the body from free radicals.

Premium-Quality Ingredients: Humic Acid, Fulvic Acid and Zeolite

Humic Acid is a complex mixture of many organic acids. While, Fulvic Acid is a natural compound or group of organic molecules obtained from organic matter. Fulvic acid is rich in O2 and promotes natural detoxification. The Cell Dtox mechanism involves humic acid, which is a binder, and fulvic acid, which is a transporter; together, these two acids help in better absorption and assimilation of nutrients needed by the body. Zeolite is a natural organic agent that acts as a catalyst, offering a better surface area for detoxification. It acts as a catalyst to improve the action of humic and fulvic acids and their absorption in the body. It helps in boosting the detoxification process.

What is Humic Acid?

Humic Acid is not just a single acid, but is a broad term that refers to a complex mixture of many organic acids that are soluble in alkaline solutions. They exist naturally as a part of nature's life cycle in soils, oceans and streams. Humic substances increase the nutrient absorption and regulate the pH.

What is Zeolite?

Zeolite is a natural organic agent that acts as a catalyst to improve the action of humic and fulvic acids, and their absorption in the body. It helps in boosting the detoxification process. Zeolite is a volcanic mineral created when a volcano's ash and lava have a chemical reaction with seawater.

What is Fulvic Acid?

Fulvic Acid is a natural compound or group of organic molecules that is obtained from organic matter. They are similar to Humic Acids with a molecular difference of Oxygen and Carbon content. Fulvic acids are rich in oxygen and promote natural detoxification.

Health benefits of Wellness Extract Cell Dtox

Fulvic & Humic Acid

Enriched with organic minerals like humic and fulvic acids, which are helpful for toxin removal, Wellness Extract Cell Dtox is a powerful supplement for cellular-level detoxification

Maintains Optimal pH

Cell Dtox contains molecules processed using Nano Technology which keeps the nutrients intact while blending them. With an infusion of 70+ trace minerals and essential natural electrolytes, it balances pH levels and restores energy.

A Super Antioxidant

A powerhouse of natural antioxidants in the form of liquid minerals, Cell Dtox, absorbs free radicals from the body and boosts immunity.

Advanced Trs Detoxification System

This proprietary nanotechnology based solution creates deeper bonds in the molecular structure of organic fulvic and humic acids with zeolite liquid, making it a unique product for boosting the cellular level of toxin removal.

Power Of Zeolite

A compound with a negative charge acts like a magnet to attract positively charged compounds/toxins/heavy metals. It is believed these compounds are trapped in their cage-like structure and carried out of the body. We use the micronized powder form of Zeolite, which has proven effective in all related scientific studies.

Why Do I Need It?

While humic and fulvic acids are present in our diet through some foods, the amount is typically quite small. With modern agricultural methods utilizing chemical fertilizers and pesticides, it's increasingly difficult to obtain natural sources of these beneficial acids. That's why taking a natural supplement such as Cell Dtox can be a wise choice to ensure you're getting the full benefits of humic and fulvic acids for optimal health.

Why Wellness Extract Cell Dtox?

Cell Dtox contains the proprietary Humic & Fulvic PLUS Zeolite blend. Besides primary ingredients, Cell Dtox has 70+ trace minerals that support the body's optimal health.

Daily detox was never this easy! Add 1ML of Cell Dtox to your drinking water, smoothies, juices, breakfast bowls, or other beverages or meals of choice. It is a safe supplement for all ages, even for pets!

Incorporate this supplement into your dietary regime for pH balance and enhanced overall wellness. Before starting any dietary supplement regimen, consult with your physician especially if you are pregnant, nursing, or taking any prescription medications.
